#### COMMUNITY LAUNDRY

For some time past the women of Chinook have felt the great and increasing need of a white laundry in town. We believe that there is scarcely a housewife—let alone the bachelors—in the village, but who would be too glad to have their family washing done at a clean white laundry.

To relieve this family washing burden—for it is a real burden to most women—the Chinook board of trade advertised in the Calgary papers for someone to start a white laundry in the village, but nothing came out of it.

In a recent issue of the Calgary Herald was an article, recommending the idea of establishing community laundries in different parts of the city, and it occurred to us that if the community laundry idea would be a good thing for Calgary, why not for Chinook. There is a very good opportunity for any man or woman with small capital to open up such a laundry here. If no one can be found who is willing to start such an industry, why not the housewives of the village get together and devise a feasible plan for a community laundry among themselves. The essentials needed are: power washers, gasoline or kerosene, stationary tubs. The initial cost of equipment for a small laundry need not cost so very much.

With the increasing difficulty in securing domestic help or day work the laundry business done by the Orientals has flourished until they have become fat and wealthy. If the Oriental man has found the business of washing clothes so profitable, why would it not be equally good for some of our own people? The community laundry could undoubtedly be made helpful and financially successful if handled in a systematic and business-like manner.

#### TEA & ENTERTAINMENT

A May-day afternoon tea was served in the auditorium of the C.C.S. under the auspices of Miss Rogers and pupils of the room. The tea tables were very daintily arranged with Maypoles and green trimmings. Assistant hostess to Miss Rogers were Madames S. Smith, Vincent and Deman, while a few of the smaller pupils made very pretty attendants on the guests of the afternoon.

In the evening a very pretty concert was given by the small tots, which included choruses, a dramatization and a Maypole dance, which were all very much enjoyed by the audience. The "Shaking Quakers" was very ably carried out by Marvel and Mildred Milligan, Caro Dumonski, Mary Peterson, Madeline Otto, and Veron Maris as "Hezekiah" was extremely good.

A meeting of returned veterans was held at the Acadia hotel, Chinook, on Saturday night, May 3rd, at which there were about twelve present.

On motion Capt. Rideout was appointed chairman of the meeting and Lieut. Ormond secretary.

The chairman outlined the object of the meeting, namely, to organize a branch of the Great War Veterans' Association, and read the correspondence from the Provincial of this association.

On motion, it was decided that a meeting be held on the 17th inst. for the purpose of organizing a branch of the G.W.V.A. and that the secretary notify all returned men of this district, and that the meeting be advertised in Chinook Advance.

On motion, it was decided that since the overseas assets of the Y.M.C.A. amounted to about \$4,000,000 and since the proceeds of the last Y.M.C.A. drive were not devoted entirely to soldiers' comforts, and since the object of the present drive was not to entirely provide comforts for returned and returning soldiers and their dependants, that the drive to commence on the 17th inst receive no endorsement whatever of the meeting.

On motion, it was decided that the offer of Mr. J. L. Carter to allow returned soldiers to use his parlor at any time for meetings or other purposes be accepted, and the Secretary notify Mr. Carter and the meeting pass a hearty vote of thanks for this privilege.

On motion, it was decided that a copy of the minutes be published in the Chinook Advance, and further, that a copy be sent to the Provincial Secretary of the G.W.V.A. at Calgary. Adjourned.

Much praise is due the little tots in the Maypole dance as they had had such little practice to be so perfect. The latter part of the evening was a short program by the adults. A selection by the orchestra was well applauded.

An instrumental by Mrs. E. T. Mitchell, entitled, "Paderewski's French Minuet," was much appreciated; Mrs. Isbister's solo was more than pleasing for which she received a deserved encore; the male-quartette rendered "In the Gloaming" in fine style, and for an encore gave the humorous song "An Unusual Case." The selection from Ryley by Principal Yake was well given. Singing of the National Anthem closed a very enjoyable program.

# First Step Towards Signing of Peace

Versailles. — In a session beginning at 3:10 o'clock and lasting barely five minutes, the German plenipotentiaries to the peace congress presented their credentials.

It was the first step in the peace negotiations.

The German credentials were presented to representatives of the allies and the United States.

Pale and, almost fainting from emotion, Count von Brockdorff-Rantzau, the German secretary and head of the peace delegation, sat through what evidently was one of the bitterest moments of his life. He was barely able to sustain himself on his feet through the brief ceremony, and reached the waiting automobile, which had brought him to the gathering.

The meeting took place in the room of the Trianon Hotel, previously used for the sessions of the supreme military council. Count von Brockdorff-Rantzau, on entering, was accompanied by Herr Landeberg, Professor Schneidung, and two secretaries, and waiting for him the allied representatives were grouped around Jules Cambon, former French ambassador at Berlin, who is chairman of the commission. Other members of the allied party included Lord Hardinge, Great Britain; Ambassador Matsut, Japan; and Henry White of the United States.

M. Cambon immediately addressed Count von Brockdorff-Rantzau, stating that he was chairman of the commission entrusted by the allied powers to receive and examine the credentials of the German delegates as the first step in a conference which, it was expected, would lead to peace.

"Here are ours," continued M. Cambon, extending, as he spoke, the formal credentials of the allied commission as plenipotentiaries to the meeting. Count von Brockdorff-Rantzau surrendered the German credentials with even less of a formal address, his emotion being too great to enable him to deliver an extended discourse.

After these brief ceremonies, the Germans turned and left the hall, walking a few steps to the cars in waiting. They were followed immediately by the allied representatives. The whole ceremony was over by 2:30 o'clock. The allied delegates then rode to the Chateau to inspect the Hall of Mirrors, where the treaty will be signed and eventually returned to the hotel for tea.

## Chinese Being Deported

Victoria. — The record for deportation of Chinese from this port to China has been beaten. On the steamer Canada Maru 36 Chinese were deported to their native land after they had failed to enter Canada as would-be college students. Examination of the Orientals by the immigration officials has shown them unfit to enter colleges here. They appealed to Ottawa, but officials there refused to intervene.

The shower that spoils a woman's Easter hat is a rain of terror.

# Hope That Italy May Be Pacified

Paris. — There is a slight rift in the Italian cloud, which gives hope of the clearing of the difficulties that have arisen in the peace conference over the Adriatic problem. Overtures for the resumption of relations have not come this far from either direction, but there are intimations from Rome that overtures from Paris would not be unacceptable and would receive every attention.

The prevailing sentiment among the delegates is against soliciting a return of the Italian representatives and it was at first believed that President Wilson shared this opinion.

Those nearest the president, however, assert that if Italy is disposed to relinquish Fiume and accept the compromise the president suggested, he could doubtless, in the interest of harmony, make such friendly suggestions as would permit the resumption of negotiations by the Italians without any loss of dignity or self-esteem.

These personal susceptibilities are felt to be more of an obstacle than the territorial merits of the case.

Rome. — The Rome newspapers in commenting on Premier Orlando's speech before the parliament and the vote of confidence in his government

## Would Not Accept Bribe

Budapest. — Six hundred arrests have been made by the Soviet authorities, virtually every financier, publisher, editor, writer, manufacturer, and ex-minister of Hungary, who could be reached, being thrown into prison. More than thirty editors and newspaper owners, as well as a larger number of reporters have been taken into custody, it is alleged, because they have refused to accept bribes to champion the Soviet cause.

## Says Poles Plan Advance on Germany

Impossible for Government to Guarantee That Armistice Will Be Maintained

Berlin. — Mathias Erzberger, chief of the German armistice delegation, in a note to Marshal Foch, made public in Berlin, says that Germany has reliable information that the Poles are planning in the next few days, an advance with large forces against German territory in Posen and upper Silesia. He adds that, therefore, it is impossible for the German government to guarantee that between Germany and Poland will be maintained if the Poles attack Germans there.

After such an attack, the German government could not permit the further passage through Germany from France of the Polish troops of Gen. Haller.

## To Enforce Five Day Week

Seattle. — Official announcement that a five day week would be enforced commencing May 3 was made by the building trades council, representing approximately 6,000 workers. No work will be done on Saturday and Sunday. The short week also will be put into effect in Tacoma and other northwest cities soon, it was said.

## Want Wilson Back

St. Louis. — The chamber of commerce of the United States, representing half a million business men, unanimously adopted a resolution urging the immediate return to this country of President Wilson and an extraordinary session of congress to enact legislation necessary "to save our social and business structure."

## Belgians Ask Financial Aid

Paris. — The Belgians have asked the council of three for a first advance of two billion francs on their share of German indemnity, according to French circles, and it appears that they have received definite and satisfactory assurances.

It is reported that there may be a public plenary session of the conference to discuss the responsibility articles of the treaty.

## DISORDERS IN PARIS

Demonstrations Aimed at Government in May Day Celebration

Paris. — Serious disorders occurred in Paris on the occasion of the celebration of May Day. French blood flowed in the streets of Paris and weapons that so lately had been used against the foes were turned against friends, brothers and sisters.

Particular efforts were made by the mobs to invade the Place de la Concorde and reach the chamber of deputies and the war ministry, where demonstrations had been planned. It was in these attempts that the casualties occurred. "Long live the Poles!" the crowd shouted at the Madeline and in the Place de la Concorde as they surged toward the soldiers, and with pale, drawn faces, the infantry withdrew and allowed the mob to reach the Place de la Concorde against a wall of policemen and determined cavalry.

## Albanian Revolt is Spreading

Rebels Have Force of Four Thousand Men

Saloniki. — The revolt in Albania against the Italian troops of occupation is spreading wider and wider, according to advices to the Greek newspaper Hellas. The commander of the rebels is said to have a force of 4,000 men.

Several hundred Albanians, it is added, have sent a message to the peace conference denouncing Italian acts in Albania and affirming confidence in Ensal Pasha.

Athens. — A proclamation has been issued in the Dodecanese Islands by which it is declared that the islands have become united with Greece. Italy has laid claim to these islands, basing her sovereignty upon rights secured following the Turco-Italian war in 1911 and 1912.

## Will Not Wait for Italians

Conference Has Decided to Go Ahead With Treaty

Paris. — It is planned in peace conference circles to go ahead with the treaty of peace without regard to any action by Italy, as it is considered probable that the Italian delegation will not return, certainly not within the week. The delivery of the treaty and the first exchanges with the Germans, therefore, will occur without the participation of Italy, and it is said that this procedure will go forward steadily up till the signing of the treaty. When the first reading will take place occurs the pact will be presented.

A day or two will be given for questions concerning interpretations of different phases of the convention, without, however, involving a prolonged discussion. The French view is that the German may ask for two weeks' delay to permit them to return to Weimar, with an additional week for discussion of the points presented after their return from the temporary German capital. This is a matter of conjecture, however, as there is no precise information as to Germany's intentions.

Reports from Berlin are somewhat contradictory concerning Germany's purposes, as some reports indicate an early signing of the treaty is probable, while others say that it is doubtful whether the pact will be signed at all. These reports, coming from different sources, indicate a lack of concerted attitude to the treaty and show there is disposition to leave the decision largely with the German plenipotentiaries who are now at Versailles.

## Trial of Ex-Kaiser

London. — The Evening Standard claims that it has the highest authority for asserting that William Hohenzollern will be prosecuted and tried, as not an originator of the war, but as one of the instigators of crime, as provided in the report of the commission on war responsibility.

## May Admit Germans in Year

London. — The Reuter correspondent at Paris says that it is the belief of Lord Robert Cecil will appoint a British member of the organization of the league of nations and that Germany would be admitted to the league after a period of probably one year.

## The Corriere d'Italia sees in the

demonstration in the chamber of deputies an indication that it is the will of Italy to help in bringing about prompt peace and that she is ready to make reasonable sacrifices to promote it.

The United States ambassador, Thomas Nelson Page, had a long interview on the situation with Premier Orlando and Foreign Minister Sonnino, after which he sent a long telegram to Paris, giving a full account of the point of view of the Italians and the Italian government.

The hope is expressed in government circles here that there will be an acknowledgement at Paris that full powers have been given by the premier and parliament and also that a conciliatory effort of the Adriatic problem may be reached.

Recruiting for R.N.W.M.P.

Toronto. — Controller MacLean of the R.N.W.M.P. states that recruiting for the force will commence in eastern Canada at once.

## Permanent Home For Peace League

Sites Have Been Offered by Families of Geneva

Geneva. — The first meeting of the league of nations in Geneva, the capital of the league, will be held in the famous Alhambra Hall of the city hall. The local authorities have been notified that a site one and one-half miles square on the lake shore will be required for the permanent home of the league, and several such sites have been offered by old families of Geneva.

The most powerful wireless station in the world will be constructed here, and also a huge airfield for diplomatic airplanes, all of which will be extra territorial. The local authorities are giving every assistance.

## Japan Wins Out

Transfer of Shantung Peninsula To Japan Without Reserve

Paris. — The agreement regarding the Shantung peninsula and Kiao-Chau, which has been reached between the council of three and the Japanese delegates, provides for their transfer without reserve to Japan, which voluntarily engages to hand the Shantung peninsula back to China.

"The Kiao-Chau settlement is a clear victory for Japan," says the Reuter correspondent. "The council of three, after hearing both Chinese and Japanese delegates, arrived at the conclusion that the Japanese demands must be satisfied." Japan receives free disposition of Kiao-Chau in accordance with her treaty with China in 1915.

It will be left to the Chinese and Japanese governments to agree upon the details of the carrying out of the treaty of 1915 and the agreements made in 1918.

## Few Unemployed In Old Country

### Large Numbers Have Been Absorbed by Peace Industries

London. — In defending the government's policy of donation to the unemployed, Sir Robert Stevenson Horne, the minister of labor, in the house of commons said it was unnecessary to give a gloomy view of the unemployment question. Since the armistice, he said, four million persons have been demobilized from the army and naval forces and from civilian employment and one million remain unemployed. Eighty per cent of the demobilized soldiers, fifty per cent of the civilian males and forty-five per cent of the civilian women have been absorbed by the peace industries.

This, the minister added, was a remarkable achievement when it was remembered that the central empires and Russia, which before the war had taken one-fourth of the British exports, were still closed in trade, and that China, Japan and New Zealand, which used to take another quarter, were virtually cut off owing to the shipping difficulties.

## Japs Oppose Language Bill

Honolulu. — The foreign language school bill strongly opposed by Japanese was tabled by the senate of the territorial legislature.

The foreign language school bill provides that to obtain certificates teachers must show a knowledge of the English language, U.S. history and U.S. civics.

Japanese editors and educators declared passage of this bill would force Japanese language schools to close. The Japanese recently adopted resolutions declaring further efforts would be made for "Americanization" and urging the bill not to be passed.

## Air Squadron for Russian Service

London. — Major Raymond Collishaw, the noted Canadian aviator, has been authorized to form a squadron for service in Russia. He is now selecting the personnel of this squadron, which will include several well known Canadian airmen.

## Aliens are Banned

Ottawa. — Dating from May 2, entry into Canada of Doukhobors, Hutterites and Mennonites is prohibited. The western agitation has at last produced results and the order in council intimated previously has been passed.

## Italians Advancing Eastward

Copenhagen. — Italian troops and war material of Doukhobors, Hutterites and Seara, on the eastern coast of the Adriatic, according to advices from Spalato. The troops are advancing eastward and the Italians are bringing up reinforcements to the demarcation line.

## Opinions Differ Over

### Kiao-Chau Award

Paris. — A great difference of opinion prevails in conference circles as to the effect the compromise in the Kiao-Chau controversy will have in the far eastern affairs. The Japanese delegates are pleased over the transfer of German rights and property to them and say the agreement very carries into effect the provisions of the Chino-Japanese treaty of May 25, 1915.

The Chinese withhold any statement, pending the issuance of the actual wording of the agreement to be included in the peace treaty.

The owners of the railway out of Kiao-Chau will use special police only to insure the security of traffic. This force will be composed of Chinese, with such Japanese instructors as the directors of the railway shall elect and who are appointed by the Chinese government. All Japanese military forces are to be withdrawn at the earliest possible moment.

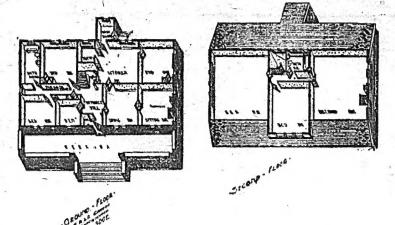

## Will Replace Airplane

Saskatoon. — Saskatoon Kiwanis club have decided to help Lieut. McClelland, the local aviator, who smashed his airplane in his first passenger trip. The machine is a total wreck and Kiwanians have decided to undertake the securing of sufficient funds to enable McClelland to purchase another machine.

## Oppose One Big Union

Calgary. — Carpenters, plasterers, steamfitters and sheet metal workers have declared themselves as opposed to the One Big Union.

## A Complete Farm Home

This farm house is complete in every detail. It is designed to house the family and the hired help under one roof, with separate conveniences for each. Attention may be drawn particularly to the two bathrooms. That feature of this attractive home will certainly have its appeal. The den shown on the left of the front entrance may very readily be used to advantage as an office by the present day business-like farmer.

## Plan To Launch League Next Fall

### League Next Fall

Paris. — Plans for launching the league of nations were pretty definitely outlined at a luncheon which Col. E. M. House gave to Sir James Eric Drummond, the secretary general of the league; Lord Robert Cecil, and others. The plans are divided into three main stages.

First—Preparatory details, which will be worked out at headquarters to be established at London during the coming summer.

Second—The inauguration of the league at Washington next October.

Third—The permanent establishment of the league at Geneva next fall or winter.

The preparatory details will begin soon after the signing of the treaty and will be in the hands of the committee designated by President Wilson's resolution before the last plen-

ary session of the conference. Lord Robert Cecil, Col. House and the Greek premier, M. Venizelos, will be among the members.

Leon Bourgeois will probably not be the French member, as he does not speak English. Most of the proceedings will be in English and it is expected that only members of the committee will be chosen who speak that language.

Col. House, with a considerable staff, will remain in Europe after the conference closes and headquarters will be removed to London, which is more convenient for preliminary work.

President Wilson will fix the date of the first meeting and ask the nations to name their three delegates to attend the inaugural gathering at Washington.

### Which House Dominates Your Block?

SOMEWHERE in every  
community is a house which  
always smiles at you. It is always  
a little more cheerful looking than  
the others, brighter, better kept,  
and—well painted.

Inside that house lives a good citizen and a good neighbor. His

lost his ambition and gradually has accepted his fate as a down-and-out.

You know that this is so, because his house says so. It is dirty,  
beginning to crack and sag, and is unpainted.

Its owner is not a good citizen. He has not done his share. His

## U.F.A. CORNER

We gladly reserve this Corner for the use of the U.F.A. in the  
hope that it may be of some benefit to the farmer.

The following letters speaks for themselves

Editor Chinook Advance

Dear Sir,—On behalf of the Executive of the U.F.A. and U.F.W.A. district organization of the constituency of Medicine Hat, and the carrying out of town Plaindealer has made a plan for the furtherance of the work of this organization that was discussed at some length at the recent convention at Medicine Hat, it was left to me to secure the co-operation of the papers published in Youngstown, Chinook, Oyen and Alsask. The plan was suggested by the offer of the Saskatoon Daily Star and the Regina Post to publish free of charge for the Grain Growers organizations of Saskatchewan many columns each day or each week of articles that would further the interests of the farmers' organizations of that province, these articles to be submitted regularly by the executive of the organization!

We feel it would be to your interest and to ours to do the same. We will do our best to secure articles of interest. It may be a little difficult at the beginning, but with your help and by getting in touch with the different sources from which these articles may be secured I have no doubt that we can build up and maintain an interesting and profitable department of your paper.

We will take full responsibility for the articles published. If not in accordance with your personal views we would have you criticize them in your editorial column, or have others do so by letters published in some of the other columns.

The different U.F.A. locals in the territory served by your paper will be notified as to whether the plan meets with your approval or not, and through these locals we may be able to secure little bits of information from time to time, which, when published in our own particular columns, will let each local know what the rest of the locals are doing.

Yours truly,

LORNE PROUDFOOT

Editor Chinook Advance.

Dear Sir,—Your request for U.F.A. articles received. I wish on behalf of the Executive to thank you for your offer. We shall start the good work at once. By way of introducing the idea to your readers I am going to ask you to publish our correspondence regarding it. I am sending you a list of the locals in the Chinook district, and the names and address of the secretary, and am going to ask you to send a marked copy of your paper to each. I would like a half dozen or so to send to new locals that may be organized later on.

And just here let me say to all U.F.A. secretaries, and to all interested in U.F.A. matters, make the fact known as widely as possible that your local paper is very much interested in your

activities, and will be pleased to give your movement the opportunity of publishing any articles you may send that will be of interest to others. The Youngstown News and the Alsask News. It is now up to us to make the very best possible use of our opportunity along this line. We want the best articles we can secure. Even though you are busy men and women, take time to send a little U.F.A. news to them. Tell them all the rest of us what your local is doing. Any good U.F.A. articles you have send them along to me. Take time to write any article yourself and send it along. Let us do our best to build up and maintain the department of our local papers, so that their readers may find it interesting and profitable.

And lastly, do not hesitate to subscribe for the paper, if you have not already done so, and get your neighbors to do the same. One good turn deserves another. Try to get as many new members in your local as possible. Organize as many new locals around you as you can. You do not have to wait to have your district director or the director of your division to do this work. Any of you can do it. If you do not know exactly how to do it, write to M. Higginbottom, secretary of the U.F.A., Calgary, and he will give you full information regarding it. Mr. C. H. Harris of Fairairns, Alta., has charge of the organization work for the constituency. Do not fail to write him first, and get his sanction for the work you propose doing, and his assistance, too, if he can get time to help you. And do not be satisfied with simply having a large membership in your local, or a large number of locals in your district. Carry on the educational work. Public opinion must be so modified that the election is practically won before the campaign begins. The work of organization cannot be too thoroughly done. We shall have to face such organization, back by all the money that is required and supported to the utmost by men skillfully brought into line and kept there by a patronage system, worked as only experienced politicians know how to work it. But with all their strength they cannot stand against public opinion. The grip of wealth and of the privileged interests can and will be quietly and surely broken by the power of the ballot in the hands of right thinking men and women. And these will be the common people of the land. "Organization, Education and Co-operation" is our motto, and I could add "Legislation," for it must surely follow.

Yours truly,

# Military Situation In Siberia No Better

Krasnoiarsk, Siberia. — Fighting proceeds daily east of here in the vicinity of Tsashed and Yurd, with a corps of Bolsheviks endeavoring to cut the railway line. The enemy ambushed a force of 200 Russians and but eighty men returned to their base.

The trails leading to the Bolshevik villages are commanded by machine gun nests and the Russians can not advance in the deep snow through the woods. The railway line is strongly held by Serbs and Czechs with field guns.

Owing to the heavy weather and deep snow the military situation may not be cleared up until summer.

Col. Brook, assistant adjutant general, is proceeding to Vladivostok after arranging for a withdrawal of Canadian details in the interior. Only hospital details are left at Omsk.

## Indians Want Order

Moderate Leaders Declare Passive Resistance Is Sound

London. — Latest dispatches to Reuter's from India indicate that the moderate elements are rallying to the support of law and order against the extremists.

A dispatch from Bombay dated April 18, says that leader Gandhi has issued a statement advising a temporary suspension of the "Passive resistance" movement and urging his supporters to assist the government to restore order in every way possible.

A Calcutta dispatch states that the moderate leaders have promulgated a manifesto deplored the disturbances, declaring that passive resistance is unsound and calling upon all Indians to eliminate the elements of disorder. From Lahore comes a dispatch to the effect that the Mohammedan leaders of the Punjab have sent out a manifesto, earnestly appealing to their countrymen, especially Moslems, to abandon passive resistance to obey authority and take effective steps to restore law and order.

## Limerick Strike Called Off

Contingence Would Mean Great Hardship for Workers

Limerick. — The strike which has been in progress for some time is to be called off, the military authorities having made slight concessions to the strikers at the request of the mayor and Bishop of Limerick. Mayor O'Hara, in the course of a statement, said:

"At a conference with the bishop we decided that the continuance of the strike would mean great hardship for the workers and the generally. We called on Gen. Griffin, commander of the troops, and he decided to allow the employers to issue passes to their employees through the military lines and to give reasonable facilities for the passage."

## U. S. Airplanes Entering Contest

Each Plane to Carry Crew of Five Men

Washington. — N. C. — and N. C. — will attempt the flight across the Atlantic. They leave Rockaway Beach early next month, but so far as is known no decision has been reached as to whether the route will be direct from Newfoundland to Ireland or via the Azores.

Each plane is expected to carry a crew of five men, will be driven by four Liberty motors of a total of 1,600 horse power and will carry sufficient gasoline to make a stop in a direct flight to Ireland unnecessary unless storms or head winds are encountered.

Soviet Abolished

London. — The short lived Soviet government at Munich has collapsed, says a Munich despatch to the Daily Mail. The garrison, which was to form the nucleus of the Red army, rejected the self-appointed dictators, who had been trying to run the republic, and the Hoffman government has resumed judicial control of the capital by proclaiming martial law.

The correspondent sent the following proclamation which was posted in Munich:

"To the laboring population, workers and soldiers:

"The entire garrison of Munich, in association with those of their civilian comrades who are anxious to preserve the welfare of all, declare the central Soviet abolished. The workers' and soldiers' councils will meet to decide their attitude toward the old Socialist government."

## Bolshevik Use Chinese

Carrying Out Their Mal-treatment of the People

Marselles. — The steamer *Chinaman* has arrived here from Odessa with 400 French civilian refugees on board.

Several of the repatriated men said that when they left Odessa, terror reigned. In the carrying out of their maltreatment of the people, they declared, the Bolsheviks had resorted to the use of Chinamen, the most savage of these people being used. It was asserted that a man named Savitski, an engineer of Kronshtadt, was slashed with knives all over his body and then compelled to sit on a pan of hot coals. He was tortured to death in the presence of his wife, who later died from shock.

Other Chinamen, the repatriated men said, dug holes in which landowners were buried. Other landowners were drowned, stones having been tied about their necks before they were thrown into the water. Any person suspected of anti-Bolshevik tendencies was shot down in the street by the Chinese, it was declared.

## Soldiers Were Fooled

Strikers Outwitted the Military and Got Home

Limerick. — The entire town of Limerick was set laughing over the manner in which the strikers who attended a hurling contest across the river and were refused permission to return home over the Sarsfield bridge, outwitted the military and got home.

Marching from the Clare end of the bridge to a long pavement, they boarded a train for Limerick. When the station was reached, four persons left the cars and tried to pass the soldiers at the gate. While the argument was proceeding the other passengers, who had remained concealed in the train, darted from other doors and windows and scattered in every direction. The guard was unable to halt them and they all soon were home.

The strike leaders promise further developments, but it is believed nothing will be done until the Irish labor congress leaders arrive from London. The time for their arrival is being kept secret.

## Egypt Still Discontented

London. — Reuter learns that the situation in Egypt is quiet but there is still an undercurrent of discontent and ill-feeling. The new ministry is busily working for order but do not appear to have any great influence in the country. The Nationalists are apparently endeavoring to set up their own government, but their attempt to establish a police force appears to have broken down completely.

General Allenby has issued a proclamation declaring that the striking government workers must return to work on resign.

## Refuses to Fight

Three Bolshevik Divisions in Siberia Withdrawn From Front

London. — Telegrams from Omsk state that the troops of Admiral Kolchak, 33 miles south of Sterlitamak, inflicted severe losses on the enemy, capturing many prisoners, machine guns and ten heavy guns. They also captured Starupat with great booty and a number of Bolshevik leaders.

Demoralization of the Bolsheviks is reported to be growing. Three Bolshevik divisions refused to fight and have been withdrawn from the front. The peasants of the Viatka government and some of the districts on the River Kama have revolted against the Bolshevik government.

## Can Import Now

London. — The board of trade announces that under an inter-allied agreement, all commodities, excepting war materials, may be imported to the northern neutral countries and Switzerland, without restrictions to the workers of Limerick.

Former Premier Arrested

Berne. — Count Czernin, former Austro-Hungarian foreign minister, has been arrested in Feldkirch while attempting to escape across the frontier into Switzerland. Feldkirch is in Austria, five miles from the border.

"Excuses are the patches with which we seek to repair the garment of failure."

## Ukrainians Aided by Old Bolshevik Army

Berne. — A large part of the Bolshevik first army, which surrendered several days ago to the Ukrainians, have offered voluntarily to fight the Bolsheviks and already has been in action with the Ukrainians against the Bolsheviks at Uitma, in the Pripet region.

This announcement is made in a Ukrainian official statement received from Kovno.

A London despatch says that messages had been received there that the Bolsheviks first army had surrendered to the Ukrainian army groups of Gen. Petlura, in the region of Homel.

Twenty thousand rifles, thirty guns and two hundred machine guns were said to have been handed over to the Ukrainians.

London. — Large quantities of material were abandoned by the Bolsheviks when they were driven out of Bessarabia recently, according to the report of Major General Edmund Ironside, British commander-in-chief of the Archangel front, regarding the operation. His report continues:

"We captured two field guns, one thousand rounds of three-inch ammunition and some prisoners. The spirit of the troops taking part was excellent and they have done very well."

Regarding the situation, General Ironside says:

"Deserters from the Bolsheviks forces have joined our own and the Russian troops. They openly show their hatred for the Bolsheviks and bear witness to the hard conditions of service. This has done more than anything else to consolidate the new Russian army."

General Ironside, in his report, mentions especially a battalion of Royal Scots with the north Russian force, as having had the hardest time of any troops in the Archangel sector, with the heaviest casualties, but displaying high morale throughout and never showing a sign of being dispirited.

## Socialists Make Demands

Paris. — The Socialist congress at its session passed resolutions demanding the return to the state of excess war profits and the levying of special taxes on wealthy establishments, financial monopolies, concerns dealing in luxuries, railways and mines. A reduction in the hours of labor, the fixing of minimum wages and vigorous protection of mothers and children, were also demanded.

Another resolution adopted called for the transfer to the Pantheon of the ashes of Jean Leon Jaurès, the Socialist leader, who was assassinated in July, 1914.

## Trying to Start War in East

Pamphlets are Prepared at Berne and Smuggled Across Frontiers

Geneva. — A proclamation issued by a handful of Egyptian Nationalists at Berne, headed by Ferid Bey, says:

"President Wilson is with us, and the English must leave Egypt."

Ferid Bey recently arrived here from Berlin and is engaged in spreading religious and political propaganda throughout Egypt and India. All pamphlets are prepared at Berne and Constantinople and smuggled across the frontiers, the principal object being to start a new war in the east, which the Germans are reported to be encouraging unofficially.

## "Strike Treasury Notes"

Finance Commission of Limerick to Issue Its Own Money

Limerick. — The general strike here incident to the proclamation of Limerick as a military area, assumed a new and interesting phase when the finance commission of the Limerick trades and labor council announced that it was preparing to issue its own money in the form of one shilling and ten shilling notes, which would be used in the purchase of food for the 14,000 strikers. The money is called "Strike treasury notes" and is secured by the stock of food which it is proposed to purchase with the financial gifts reaching Limerick from other parts of Ireland and by the "integrity of the workers of Limerick."

Seedling Under Way

A good start has been made in seedling operations, especially in Alberta. Reports from several points in this province at the beginning of this week indicated good progress, and work has continued only by occasional showers. Reports generally speak of favorable soil conditions, a good supply of moisture having been sincerely welcomed. Farmers generally are well pleased with conditions, and consider the outlook on the whole to be very favorable.

## A Community Creed

A town with a community creed of that rarer kind which does not exalt that particular town above any other place on the habitable globe, is New Rockford, North Dakota. The community creed of New Rockford has been printed in large, clear type on stiff bluish paper, and in this form the originators, with commendable enterprise, are sending it out through the mails.

There are three clauses to the creed. The central clause says: "We believe in our community, New Rockford, and its environs, as the best place in which to live, to follow our chosen vocations, to pursue our happiness, and to rear our boys and girls to God-fearing and loyal Americanism and womanhood." Whatever in this may smack of the "publicity commissioner," is immediately disclosed, however, by this brotherly paragraph, the last clause of the creed, addressed to all and sundry among kindred clubs:

"We believe that you are just as good as we are, and that we are just as good as you are; that you can help us, and that we can help you; and that through our co-operation we can help everybody else."

## Would Be Friends

## With Everybody

Berlin. — Mathias Erzberger, head of the German armistice commission, in an address before the peace commission in the national assembly, spoke against a policy for an alliance of the European continental powers against the Anglo-Saxons, which he said would destroy the basis of a league of nations. He added that Germany's policy was based on President Wilson's 14 points, and said the German government desired a lasting peace with all nations, including France, with which country the armistice commission had avoided bringing about aggravating opposition.

## Will Aid Veterans

## Australian Forces and Dependents Receive Assistance From Government

Melbourne. — Under the provisions of the war service act which is now in force, members of the Australian land and sea forces and their dependents will receive assistance to a maximum of \$3,500 from the government, toward obtaining their own homes.

The act provides that soldiers, sailors and nurses who served abroad, widows and unmarried dependents of soldiers and sailors, and the mothers of soldiers, and sailors whose husbands have been incapacitated, may acquire dwellings and land from the state on a rent purchase system at cost, plus five per cent. The payments may be made weekly or monthly, and can extend over a period of from 20 to 37 years.

## European Market

## For Poultry

Demand for Poultry Products Will Be on the Increase

A French poultry expert, according to advice received by the Canadian trade commission, states that there is an urgent need in France for 3,000 breeding hens at present. It is estimated that egg and poultry production in the last four years has decreased 50%. Over 6,000 hens have been given by British traders to help the restoration work in northern France.

The act provides that soldiers, sailors and nurses who served abroad, widows and unmarried dependents of soldiers and sailors, and the mothers of soldiers, and sailors whose husbands have been incapacitated, may acquire dwellings and land from the state on a rent purchase system at cost, plus five per cent. The payments may be made weekly or monthly, and can extend over a period of from 20 to 37 years.

## Ill-Feeling in Italy

## Allied Opposition to Dalmatian Claims Causes Trouble

London. — A despatch to the Daily News from Rome, delayed states:

"There is a great deal of ill-feeling in Italy against England and America, because of their opposition to this country's Dalmatian claims."

President Wilson gets most of the blame because he is reported to have refused the demand that Fiume should be assigned to Italy, so delayed the conclusion of peace and contributed to the failure of the League of Nations by trying to reconcile it with the Monroe Doctrine.

The traditional friendship between England and Italy, judging from the attitude of the press, no longer exists. In fact, not only have the Italians discovered British "atrocities" in Ireland, India and Egypt, and started commenting on most unfavorable incidents, but long editorials are published daily, evidently with the tacit approval of the government, explaining that England entered the war to make money, to get the German colonies, crush Germany, capture the world's markets, and to increase her own power. It is useless to conceal the fact that the difficulties in the way of re-establishment of commercial relations between Italy and Germany have in a great measure been removed.

## Korean Ministers Resign

San Francisco. — T. Hasegawa, governor-general, and I. Yamakata, vice-consul general of Korea, have resigned because of the revolution in that country, according to a Tokyo dispatch printed in the Japanese American paper here.

Yamakata is the son of Prince Yamakata, one of the elder statesmen of Japan. It is said the resignations were not desired to be accepted by the government.

## Canada's War Expenditure

## Workmen Start Revolution

## Petrograd Organization Demands Private Ownership of Property

Washington. — Revolt of workmen in Petrograd was reported in advices to the state department from "the Russian frontier." The workmen's organization in that city, the advices said, adopted resolutions demanding the re-establishment of the constituent assembly, the freedom of the press and the right of private ownership of property.

That this action is regarded by the soviet government as a serious defection from its ranks is indicated by the fact that the Bolsheviks have found it necessary, in order to repress disorders among the workmen, to recall the Volga international battalions.

Ottawa. — A blue book tabled in parliament gives details of expenditures under the war appropriations act during the fiscal year 1918, the last full 12 months' period of the war. Total expenditure for the year was \$343,856,601. The expenditure in Canada by the militia department was \$201,288,628, while overseas expenditures amounted to \$115,381,243. Naval defence cost \$9,666,229 during the 12 months' period, while the invalided soldiers' commission required \$11,393,654. The remainder of the total was spent by the various other government departments.

## Praise For War Work

Cardinal Gibbons Says Salvation Army Rendered Splendid Service

New York. — Cardinal Gibbons praises the war work of the Salvation Army here and abroad in a letter made public by former Gov. Charles S. Whitman, of New York, chairman of the national committee of the Salvation Army home service fund.

"I rejoice in the splendid service which the Salvation Army rendered our soldiers and sailor boys during the war," said the cardinal.

"Every returning trooper is a willing witness to a great and dangerous worker of the Salvation Army, both on the front and in the camps at home. I am also more happy to command this because it is free from sectarian bias. The man in need of help is the object of his efforts, with never a question of his creed or color."

## Japan May Join League

Tokio. — The impression exists in well-informed quarters here that Japan will join the league of nations, even if the racial clause of the league covenant is finally rejected by the peace conference.

This was brought out in answer to special news dispatches from Paris, asserting that Japan had informed the other delegates to the conference that Japan would decline to enter the league if the racial clause was not adopted.

## Fear Turkish Menace

Armenian Delegation Considers Making Appeal for Assistance

Paris. — Fear of further Turkish aggression has caused the Armenian delegation now in Paris to consider making an appeal for assistance in organizing an Armenian army to drive the Turks from the newly formed republic. Their requests for the occupation of Armenia by allied troops has brought from the peace conference, according to Avetis Alouian, president of the Armenian delegation, only promises of consideration.

A report just received by him from the Armenian foreign minister declares that the Turkish menace is increasing daily and that unless radical measures are adopted there can be no other result than domination of the country by the Turks. Grave apprehension is felt that this would be accompanied by massacre.

M. Alouian declares that the Turks have failed to carry out the terms of the armistice, which provided for withdrawal of their forces. He adds that the few British detachments scattered along the eastern line of Caucasian Armenia have not served as a basis for the removal of the Turks or even for deterring them in putting into effect what he regards as a carefully laid plan for the extinction of the Armenian people.

## Hungarian Soviet To Fight Rumania

Government Issues Appeals to Public to Arm Themselves

London. — Bela Kun, Hungarian foreign minister, accompanied by other members of the government, has left for the front, according to a Budapest despatch to the Exchange Telegraph company, to take command.

Budapest. — The news of a Rumanian advance has caused intense excitement. Following upon vehement speeches at meetings of the soldiers' and workmen's council the government issued a series of impassioned appeals to the public to arm themselves and complete the revolution, which is declared to be in great peril.

A proclamation to the munition workers says that every factory must now work only for the front, there must be no holidays and no rest so long as "international profiteers are strangling the proletarian revolution."

"Greatness isn't everything; we know some men who are great nudes."

## Bad Breath IS CAUSED BY CATARRH

Canadians suffer more from Catarrh than from any other disease. On this account Catarrh is dangerous and should be checked at the outset.

It isn't necessary to take internal medicine to cure Catarrh. There is a far better method.

Doctors now treat Catarrh by sending a purifying healing vapor through the breathing organs. In this way the germs of Catarrh are destroyed.

The only successful vapor treatment is CATARRHOZONE, which the patient breathes through a special inhaler to the respiratory organs.

The rich, warm essences of Catarrh zone heat and soothe all inflamed surfaces. They effectively treat the nose, throat and lungs with a powerful antiseptic that destroys irritation at once.

Catarrh zone brings into the system the balmy air of the pine forest. It cures completely colds, coughs, catarrh, weak throat, and bronchitis.

Once cured, Catarrh zone always uses. Nothing is pleasant, so people, so quick to relieve, so absolutely sure to permanently cure. Accept no substitute. Large size lasts two months, and costs \$1.00; small size 30c; sample trial size 25c; at all dealers.

## Carmen's Messenger

— BY —  
HAROLD BINDLOSS

WARD, LOCK & CO., LIMITED  
London, Melbourne, and Toronto

(Continued)

Since he had found his partner, he reached home, in a social circle, where the difference was great. Alice, Featherstone and a small Canadian lumber dealer, and had, with characteristic determination, resolved to bridge the gap. This meant bold plans and strenuous efforts. He shrank from the task, and must have his partner to help. Lawrence, who was resolute enough when things went against him, sometimes got slack when they were going ahead. But he had the money. For all that, Lawrence was unwilling to keep pace with him; he must be dragged. Foster frowned as he put off matters that needed prompt attention. His resolute friend then sent a telegram, caught the next west bound train.

When he got down at the flat station hisancyance returned. If there was any ground for his being sent for, he ought to have been told, and if there was not, he could have been told he had been caused to be well employed. He resolved to tell Lawrence his views upon this as he took his seat in the hotel and stopped with a heavy heart when he entered the veranda.

Lawrence lounged negligently in big chair and greeted him with a smile, but it faded. Mrs. Featherstone and Alice sat close by, with Mrs. Stephen and Lucy in the background. It cost Foster something of an effort to preserve his calm but he advanced to Mrs. Featherstone, who gave him a look of inquiry that repaid him for much. Featherstone welcomed him heartily, but with a touch of embarrassment, and then Foster thrilled as Alice gave him her hand. She had a calm, winsome smile in her eyes, as if she meant that she had known his promise would be kept. He did not remember what he said to Mrs. Stephen and Lucy, but was grateful to Lawrence, who laughed.

"I imagined you'd get something of a surprise, Jake." In fact, when the train stopped I pictured you coming up the road as fast as you could drive, and when you would have a mind to tell me what you thought. Before that, when I got your telegram, I told Alice I could see you frowning as you filled up the form."

"I know, Mrs. Featherstone, was here," Foster replied awkwardly. "That's obvious," Lawrence said, chuckling. "Candour's one of your virtues. But what about the rest of you?"

Foster, who wished he had been more tactful, thought his comrade's amusement might better have been restrained; but Lawrence resumed: "I must have been a fool to leave you when you had me to do. The curious thing is that when you set off from the Crossing with me you declared you were tired of working for dollars."

"My Ford, tiredness didn't prevent him working for his friends," Alice interposed. "He must work, anywhere; that's the kind of man he is, and I don't suppose he was not interested when he got a summer holiday."

Then Featherstone turned to Foster. "I imagine we both dislike formal speeches and Lawrence, knowing this, means to send out our meeting.

For that, there's something to be said, and now, when the others are here, is the proper time. When

400 Have Now Farms and are Working Them

Soldier Farming in Manitoba

Regina, Sask. — High prices for wool, mutton and lambs for some years to come, is prophesied by Professor W. H. J. Tisdale of the University of Saskatchewan. The professor believes that the price of wool this year will not fall below 45 or 50 cents per pound and may go even higher. Sir Arthur Goldfinch, one of the greatest living authorities on the sheep and wool situation, recently declared that the stock of wool in the world's markets would be less in 1920 than in 1919. He estimated a large increase in wool production, but still larger increases in the demand by consumers.

Things have reached the point now where anyone has to earn twice as much as he is worth in order to get half enough to live on.—Kingston.

Arrange for Celebration

Edmonton, Alta. — A temporary meeting has been held here to arrange to hold a stampede, fete, Mardi Gras, or any form of celebration, to last one week, in honor of the many men who have returned from overseas, and have left the locality to serve in his majesty's forces.

"My dear," said Mr. Hawkins to his better half, "do you know you've one of the best voices in the world?"

"Indeed," said the delighted Mrs. Hawkins, with a flush of pride at the compliment. "Do you really think so?"

"I certainly do," replied the heartless husband, "otherwise it would have been worn out long ago."

## Unloading Grain By Air Power

The two powerful floating pneumatic grain elevators recently put into service at the port of London are admirable examples of modern British labor-saving equipment. Each elevator floats on a 60-foot pontoon carrying a 220 horse power oil engine which drives a high speed turbo-expander by means of which a partial vacuum is caused in a suction pipe line. The air rushing in at the free end of the line sucks up the grain from the vessel's hold and deposits it in a receiving chamber, from which it is discharged through a valve and thereafter handled mechanically. Two suction pipes are provided with each float and they are raised and lowered by means of an electric motor driven by an explosion-proof electric motor. A similar type of motor, rendered necessary by the inflammable dust raised in handling grain, drives an elevator which delivers the grain to a weigh house, where the grain is automatically weighed. Thence it passes through sacks into hopper barges alongside the pontoon. A 35 horse power oil engine supplies the current for power and lighting purposes. All the plant and equipment were British throughout. Pneumatic elevators of this type not only save labor by thoroughly cleaning out a ship's hold without retrimming, but they are much healthier for the workmen than any other equipment, as special machinery is used for extracting the dust. Both pontoons have been in regular service for some time and have proved thoroughly satisfactory. Each has a capacity of 100 tons per hour when working with wheat.

## Recovering Stolen Goods

French and Belgians Taking Effective Measures Against Receivers

Paris. — Although there have been complaints of the delay in recovering a flushed face. "In the beginning, I made you suffer, but it might have been better if I had openly paid for it." Now, when that got him, there's something yet to be paid!" Foster stopped and looked at the others with half suppressed emotion. "That I have escaped a fate like Daly's is to the love and trust that was given me, and the confidence and my partner's unselfish loyalty."

Mrs. Featherstone looked at him with gentle approval and her husband said, "Lawrence has taken a very proper course, but I think this matter needs to be settled with his receiver, and then send a telegram when he caught the next west bound train.

When he got down at the flat station hisancyance returned. If there was any ground for his being sent for, he ought to have been told, and if there was not, he could have been caused to be well employed. He resolved to tell Lawrence his views upon this as he took his seat in the hotel and stopped with a heavy heart when he entered the veranda.

## Y.M.C.A. Notes

### New Reconstruction Program

Association Needs \$1,100,000 to Carry On Work

The Young Men's Christian Association, of whose invaluable offices performed during the war, continued during demobilization, and to be continued indefinitely, thereafter on behalf of returned soldiers, it is superfluous to remind anyone, needs \$1,100,000 to be raised in a great Dominion campaign, May 5-9.

This campaign is promoted by the national council of Young Men's Christian Associations of Canada. The money will be spent in a new and extended program, which the "Y" plans to aid, in a carefully thought out way, the great after-war task of Canadian reconstruction. Heretofore, most of Y.M.C.A. work has been done in the cities and towns; but in the new program there are three departments of rural work, taking in all the smaller towns, villages, hamlets and open country. In fact, one of the chief objectives of the campaign is to carry the Y.M.C.A. and its influence, which has always been exerted for good, to the hamlets and country places that have, heretofore only been reached on rare occasions by the travelling secretaries.

Ful financial support is needed to enable the association to prosecute

its new program. The Y.M.C.A. is a body which necessarily and deservedly depends upon public contribution in money. None of the funds given it beyond bare and essential expenses are absorbed by the organization itself. Donations are administered in good works, ably systematized, efficiently and conscientiously, mother works against heavy odds if there is a laxity throughout the community with regard to such matters as cleanliness, epidemics and moral environment.

The children of even the cleanest homes are never entirely safe as long as dirt and disease are allowed to harbor in any section.

A slum or shack district is a menace to the whole community, and the more fortunate people who live in the more favorable surroundings often pay heavily for their selfish indifference.

When, as generally happens, the hamlets and country places that have, heretofore only been reached on rare occasions by the travelling secretaries.

The sale of the s.w. 1/4 33-25-7 w. 4 has been made by H. Soetje to Mr. Jas Pettigrew of Chinook. Mr. Pettigrew contemplates building a new house on the land and will make it his permanent home place.

Corp. Jackson, of Heathdale, is another of our vets to return home last week. Corp. Jackson has the distinguished honor of wearing the Mons Medal and the D.C.M. Medal, the former being worn by but few. He, too, was accompanied by one of England's fair daughters as his wife.

"Shall we fight or foster Bolshevism?" will be the subject of an address to be given by Mr. Jas. Pettigrew at the regular monthly meeting of the Chinook Local of the U.F.A., to be held in the consolidated school, on Saturday evening, May 17th, at 8.30 sharp.

Mrs. Clarke, mother of Mrs. J. R. Miller, who went to Calgary a few weeks ago to undergo an operation for cataract on both eyes, returned home Wednesday morning. Her many friends will be glad to know that she went through the operation successfully, and, with care, her eyesight will be restored, so says the specialist.

A meeting of the citizens of Chinook was held at the Banner Hardware re Chinook's annual sports days, and also putting on sports the first day of the agricultural society fair. After some discussion a resolution was passed to hold our regular sports day on June 17th. Another resolution was passed to assist the agricultural society in putting on sports in connection with their fair. The following committee was elected to take charge of both events: Messrs. Ormond (president), Miller (sec.-treas.), Vanhook, Rennie and Huggins.

The Flagg quarter section at Kinmundy, which was put up for sale at Chinook, a week ago, only one bid at \$5.00 an acre was offered. It was bought in, at the reserved price \$1750.00.
